

Benjamín Paz

Frontend Developer · Angular & TypeScript

be.dev4@gmail.com | linkedin.com/in/benjamín-paz | be-devs.com | Santiago del Estero, Argentina · Open to remote

SUMMARY

Frontend developer specializing in Angular 18 and TypeScript, with 4+ years building and shipping web applications for public institutions and private clients. End-to-end track record: from requirements to deployed product. Complementary WordPress/WooCommerce e-commerce experience. Open to remote roles.

EXPERIENCE

Tribunal de Cuentas — Santiago del Estero

Aug 2023 - Present

Frontend Developer

- Built Angular 18 institutional web app (standalone components, new control-flow syntax) to modernize internal communication.
- FAQ system reduced staff response times and improved access to core system information.
- Full ownership: component architecture, Bootstrap UI, Firebase Hosting deployment.

Freelance

2022 - Present

Frontend Developer

- Delivered Angular SPAs for NGOs and service businesses (Fundación Potenciar, Radiadores Lavalle) — full cycle from requirements to deploy.
- Built Preformal, a SaaS-style quote management tool with user authentication and client management. (presuapp-frontend.vercel.app)
- Implemented WooCommerce stores for Lino Libros (literary publisher) and Desing Goo (furniture e-commerce) — theme config, Elementor, custom CSS.

Finor SAU / Banco Santiago del Estero

2017 - 2023

Financial Operations

- Six years of high-accuracy banking operations — cash handling, payroll, inter-branch coordination. Precision and process-orientation applied directly to development work.
